Hørsholm, August 21, 2015

Reference letter, Mina Lee

Mina Lee stayed with us for a 3-month summer internship position in the Computer Science field here at Trap Danmark from June 1 until end of August 2015, helping to plan, and as sole responsible, to actually code the first advanced smartphone app prototype of the national Danish topographic encyclopaedia “Trap Danmark”.

Mina has done an excellent job, and we are impressed with the quality of Mina’s work. Mina is extremely hard working, and her expertise and friendly nature will be much missed here at Trap Danmark.

Mina has excellent communication skills; fluent in English and she has been very eager to understand and navigate Danish culture. In addition, she is extremely organized and reliable. Mina has proven her ability to work independently and is able to follow through to ensure that the job gets done.

Mina would be a tremendous asset for any company and has my highest recommendation. If you have any further questions with regard to her background or qualifications, please do not hesitate to contact me.

Yours sincerely,

Niels Elers Koch
Professor, dr.agro., dr.h.c.
Director General, Editor-in-Chief
Immediate Past President of IUFRO (www.iufro.org)
